

**IMPORTANT STANDARDS UPDATE NOTIFICATION FROM YOUR
NATIONALLY RECOGNIZED TESTING LABORATORY**

«AddressBlock»

RE: Standard: B181.0 - Definitions, general requirements, and methods of testing for thermoplastic pressure nonpressure piping & CSA B182.2 – PSM type polyvinylchloride (PVC) sewer pipe and fittings
Standard Number: ANSI B181.0 & CSA B182.2
Client Number: «F3»

As a valued customer we are providing you with advanced notice of revised requirements for the referenced standards and applicable updates. Because of these revised requirements, we are advising all Applicants who have products listed to this standard of this Standards Update Notice.

This will affect your Listing status so it is important to review this letter carefully.

Standard	Effective Date of Revised Requirements	New/Revised Requirements
Referenced Above	April 1, 2008	<u>See Summary of Changes under Description of Change</u>

Important Information Regarding this Standards Update Notification

1. Your currently listed products to the above standard, as well as their listing reports, will need to be reviewed against the new/revised requirements noted above. As part of this review it will be determined whether any additional information is needed or further evaluation and testing is required on product samples. See attached.
2. If the products currently listed will not be produced after the Effective Date for these new/revised requirements, please advise us of these products and their listings will be withdrawn on that date.
3. Currently listed products must be found in compliance with the new/revised requirements by the Effective Date or the authorization to apply the WHI Mark will be withdrawn.
4. All new products submitted will be evaluated to the new/revised requirements noted above unless you specifically request otherwise in writing. Please note that new product listings will be withdrawn on the Effective Date unless the product is found in compliance with the new/revised requirements.

Please contact your **Intertek Engineering Office** listed below, to determine what action will be needed to maintain your WHI Listing. If this letter does not pertain to your reports or if addresses, contacts, etc. are incorrect, please make a note on it and fax it back to 905 678-7131.

This information is for the exclusive use of Intertek’s Client and is provided pursuant to the Certification agreement between Intertek and its Client. Intertek’s responsibility and liability are limited to the terms and conditions of the agreement. Intertek assumes no liability to any party, other than to the Client in accordance with the agreement, for any loss, expense or damage occasioned by the use of this information.

Sincerely,

Certification Manager

Description of Changes

Impact Statement: A review of all Listing Reports is necessary to determine which products already comply with these new/revised requirements and which products will require re-evaluation and test.

NOTE: Effective immediately, this revised standard will be exclusively used for evaluation of new products unless the Applicant requests in writing that current requirements be used along with their understanding that their listings will be withdrawn on the **Effective Date of April 1, 2008** unless product is found to comply with the new/revised requirements.

Summary of Changes:

CSA B181.0

Inclusion of a new standard; general requirements, common tables and figures were moved into CSA B181.0.

Clause 5.6 – inclusion of Type IV backwater valves

CSA B182.2

Clause 4.1.2.2 – update of PVC cell classification; deletion of thermoplastic elastomer stress relaxation test

Clause 5.1.5 – clarification to the requirements of holes for perforated pipe

Clause 5.4 – inclusion of pipe stiffness requirements for perforated pipe

Clause 5.5 – inclusion of impact resistance requirements for perforated pipe

Clause 7.1.1 – inclusion of marking requirements for coextruded pipe
